

Unique controls

Compact and manoeuvrable

Robust and reliable

Low maintenance  
and repair costs

## AM 20

### Hand pallet truck (2,000 kg)

The AM 20 hand pallet truck is the ideal warehouse assistant for all manual transportation over short distances. Various advantages include:

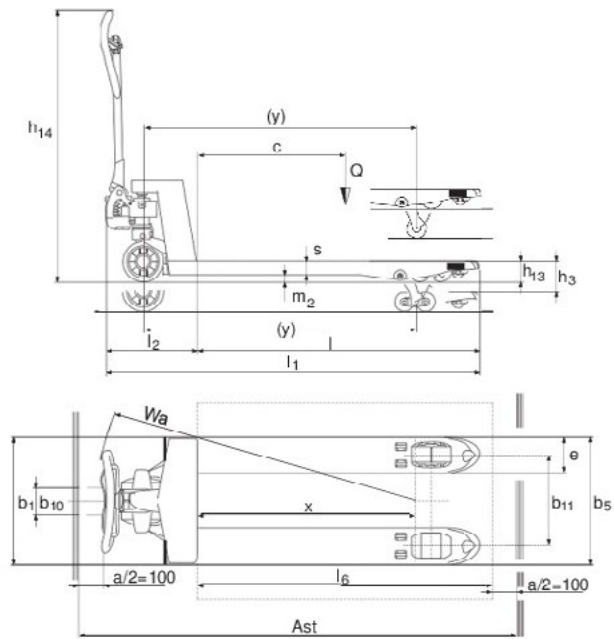

- Easy to operate controls – equally comfortable for left and right-handed operators. Manoeuvring with one hand on the tiller arm is both comfortable and safe.
- Short chassis length - offering maximum manoeuvrability in restricted conditions.

Chromed wheel and joint bushings allow easy pulling or pushing. Maintenance-free operation possible thanks to permanently lubricated bushes.

The AM 20 has a powerful hydraulic pump with externally mounted hydraulic tank for outstanding ease of maintenance.

Different tyre and roller options guarantee optimum use with all ground conditions.

# AM 20

# Technical data in line with VDI 2198

Identification	1.1	Manufacturer (abbreviation)		Jungheinrich
	1.2	Model		<b>AM 20</b>
	1.3	Drive		manual
	1.4	Manual, pedestrian, stand-on, seated, order picker operation		hand
	1.5	Load capacity/rated load	Q t	2
	1.6	Load centre distance	c mm	600
	1.8	Load distance	x mm	882
	1.9	Wheelbase	y mm	1,120
Weights	2.1	Service weight	kg	70 71
	2.2	Axle load with load front/rear	kg	549 / 1,521
	2.3	Axle load without load front/rear	kg	46 / 24
Wheels / frame	3.1	Tyres		C,V,N
	3.2	Tyre size, front	mm	Ø 200 x 50
	3.3	Tyre size, rear	mm	Ø 82 x 93 Ø 82 x 70
	3.5	Wheels, number front/rear (x = driven wheels)		2/2 2/4
	3.6	Tread width, front	b <sub>10</sub> mm	130
	3.7	Tread width, rear	b <sub>11</sub> mm	380
Basic dimensions	4.4	Lift	h <sub>3</sub> mm	115
	4.9	Height of tiller in drive position min. / max.	h <sub>14</sub> mm	1,230
	4.14	Standing height raised	h <sub>12</sub> mm	200
	4.15	Height, lowered	h <sub>13</sub> mm	85
	4.19	Overall length	l <sub>1</sub> mm	1,540
	4.20	Length to face of forks	l <sub>2</sub> mm	390
	4.21	Overall width	b <sub>1</sub> /b <sub>2</sub> mm	540
	4.22	Fork dimensions	s/e/l mm	48 / 160 / 1,150
	4.25	Width across forks	b <sub>5</sub> mm	540
	4.32	Ground clearance, centre of wheelbase	m <sub>2</sub> mm	37
	4.33	Aisle width for pallets 1000 x 1200 sideways	A <sub>st</sub> mm	1,743
	4.34	Aisle width for pallets 800 x 1200 lengthways	A <sub>st</sub> mm	1,793
Performance data	4.35	Turning radius	W <sub>a</sub> mm	1,275
	5.3	Lowering speed, laden/unladen	m/s	0.1 / 0.06

# Benefit from the advantages

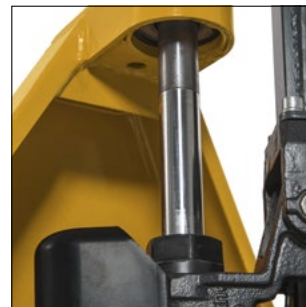

Ergonomic operating handle

Maintenance-free hydraulics

Permanently lubricated joints for maintenance-free operation

Easy steering thanks to the ball bearing of the piston rod

## Easy to operate

Easy to operate controls are suitable for both left and right-handed operators. The special lowering valve enables loads to be lowered precisely.

## Compact and manoeuvrable

The chassis length of just 390 mm allows for reliable and easy operation, even in very confined spaces.

## Effortless and simple

The optimised hydraulic system minimises the required pumping force. The bushes on the wheels reduce the

required drawbar pull. The piston rod is supported at the pivot point by a high-quality ball bearing. This provides less rotational resistance, easier steering capability and reduced wear. The entry and outfeed rollers facilitate the crossing of thresholds and simplify entry into the pallet.

## Quiet and fitted with bushes

The chromed bushes on the wheels and joints guarantee an exceptionally long service life. Joints no longer need to be lubricated; the AM 20 continues to run like clockwork.

## Durable

Strong forks, welded tiller mounting and protected entry rollers. The frame is made in a particularly high-quality welded design in sectional steel, and is torsion-resistant and extremely durable - the best prerequisites for maximum stability and durability.

## Equipment

The AM 20 can be optimally equipped for every ground type and application due to its different tyre and roller options.
